TECHNICAL EXPERTISE

JesusKids

<https://jesuskids.no>

(January 2017 - July 2021)

The JesusKids app contains tools and curricula for Sunday school teachers, kids ministers, and parents, and weekly teachings for different age groups on a three-year cycle/sequence. Available for download on Google Play and App Store.

FlutterScreens

<https://github.com/samarthagarwal/FlutterScreens>

(July 2018 - July 2021)

A collection of Screens and attractive UIs built with Flutter ready to be used in your applications. No external libraries are used. Just download, add to your project, and use.

Woolonic3

<https://github.com/samarthagarwal/woolonic3>

(March 2018 - July 2021)

An e-commerce application built with Ionic Framework and WooCommerce as the backend. Supports multiple payment gateways and a lot of amazing features

WooCommerce SDK for Dart

https://pub.dev/packages/woocommerce_api

(April 2020 - July 2021)

A dart package to interact with the WooCommerce API (now with null-safety). It uses OAuth1.0a behind the scenes to generate the signature and URL string for HTTP based websites.
